

Students Guide for *Testing SoftClick*[®]

SoftClick[®] is an Internet browser-based application for educational assessment that allows students to send responses using virtually any device that is web-enabled, such as Smartphones, laptops, tablets and PDAs. **SoftClick**[®] works with standard web browsers like Internet Explorer, Firefox, Chrome and Safari.

This Guide is intended to provide Potential SoftClick users with specific instructions to perform a Demo / evaluation that verifies their web enabled device AND the classrooms internet “connectivity” will support the potentially high internet traffic that can occur when using SoftClick.

Your Instructor will provide you with the necessary information to perform this test.

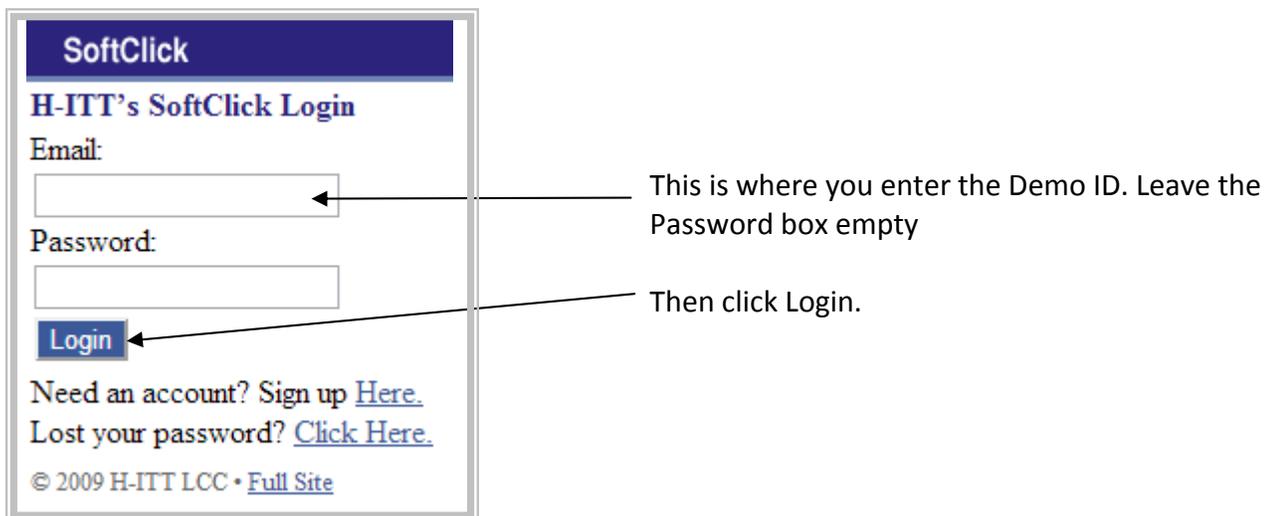

About SoftClick:

SoftClick is an internet based application that collects user responses from any web-enabled device (most typically, student’s use their Smartphone). These responses, stored on H-ITT’s SoftClick site, are retrieved by the in-class H-ITT Acquisition program via an internet connection on your teacher/instructor’s computer.

You must be connected to the internet either through your local Wi-Fi or direct connect through your cell phone’s web service. For reliable operation a good internet connection is required of all devices.

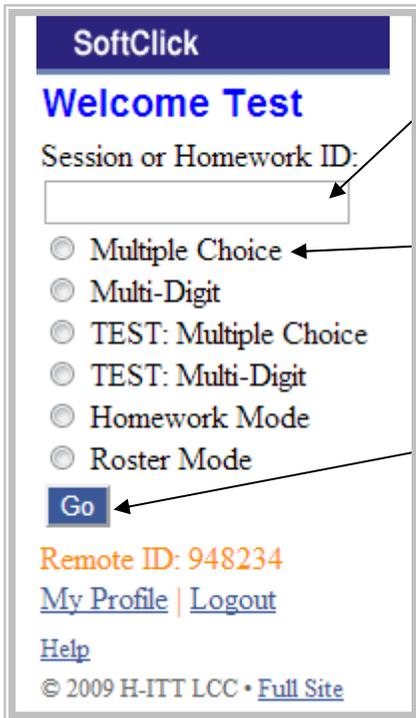

Here are the steps to utilizing the Demo version of SoftClick in class:

- Make sure you have adequate internet service on the device you intend to use for SoftClick responses (i.e., Smartphone, laptop, tablet, PDA, etc.)
- Go to www.h-ittsoftclick.com and enter the Demo ID (provided by your teacher/instructor) in the ‘Email’ box as shown below. **Leave the ‘Password’ field empty.** Click ‘Login’.

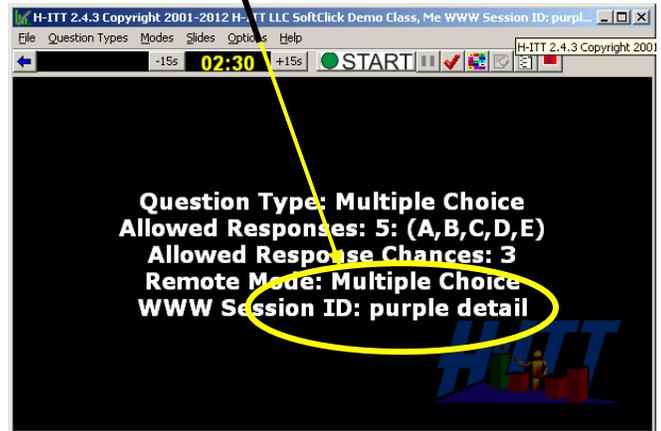

The screenshot shows the SoftClick login interface. At the top is a dark blue header with the text "SoftClick" in white. Below the header is the title "H-ITT's SoftClick Login" in blue. There are two input fields: "Email:" and "Password:". The "Email:" field is highlighted with a black arrow pointing to it from the text "This is where you enter the Demo ID. Leave the Password box empty". Below the "Password:" field is a blue "Login" button, which is also highlighted with a black arrow pointing to it from the text "Then click Login.". At the bottom of the form, there are two links: "Need an account? Sign up [Here.](#)" and "Lost your password? [Click Here.](#)". At the very bottom, there is a copyright notice: "© 2009 H-ITT LCC • [Full Site](#)".

The SoftClick Welcome screen will appear:

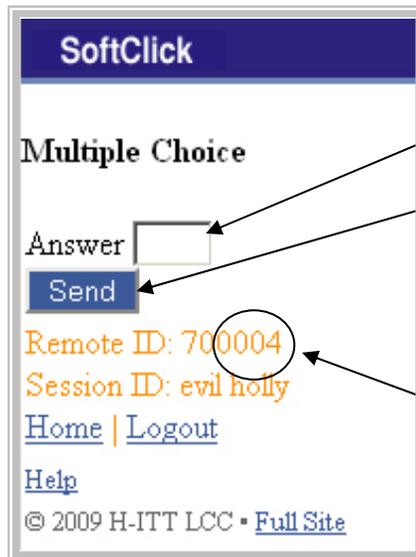

1. Enter the SoftClick Session ID (provided by your teacher/instructor) in the 'Session or Homework ID' box.
NOTE: the session ID will also be displayed in class in the Acquisition program; Example "purple detail"
2. Check the 'Multiple Choice' radio button.
3. Click 'Go'

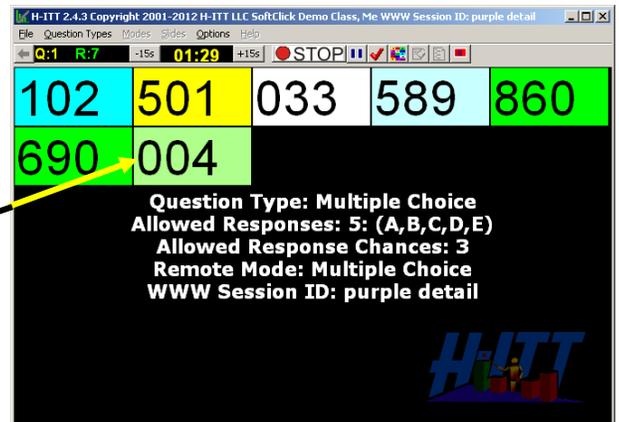

The SoftClick answer screen will appear:

Once your teacher/instructor asks a multiple choice question, type in **one** of the following multiple choice answers: **A, B, C, D, or E only**. If you send any response other than A-E, your ID box *will not show*.

1. Enter your Multiple Choice selection here
 2. Click Send.
- You will receive a green 'OK' if your answer was successfully sent.

Now look for your ID box showing the **last three digits of your Remote ID** on the H-ITT Acquisition screen. If it appears, you can confirm that your SoftClick is working properly!

NOTE: The demo mode is only functional for demo purposes as the Remote ID will be unique *upon each log in* with the Demo ID. You will not be able to register or use this Remote ID after the Demo.
